

October 31, 2025: On Halloween and the Ghost of America

This Halloween let us all accustom our brain to the newly solidified truth that America exists in name only. The RINO Party of Republicans In Name Only and their Freemason Secret Society has successfully completed its task of destroying what was once considered the 'greatest country on earth.'

Let us remember now, and forever, that it was not the 'government' that made America the greatest country on the planet - it was, in fact, the People..

Freemasons of America and the world: You did not 'conquer' some heathen territory of evil-doers. You and your organization took a land that began with the greatest of people and the greatest of ambitions and slowly, but surely, whittled it away to become a newfound land of old Nazi-ism and old world evils.

Republican politicians, RINOS, and Freemasons of every make and model: this is your true legacy. You have successfully destroyed the greatest opportunity that has existed in 2,025 years. Your efforts are unmatched and your determination is remarkable.

To the Freemason families of the world: wear your victorious 'A.I.N.O.' colors with great pride. You have proven yourselves to be the greatest, most-effective, and most-ambitious saboteurs of all time!

To satan be their glory, their honor, and their respect. Satan bless A.I.N.O.! (I know!)
